Overall test pass score

100.0%

76 / 76 tests passed

Hybrid verdicts with rule fallback

Generated 2026-10-16T06:36:03.844188+00:00 · Historical declared version unavailable; version identifies the saved test definitions.

01 / THE RESULT

Executive summary

The run passed 76 of 76 tests, giving a test pass score of 100.0%.

There were 0 failures, 0 uncertain results and 0 pending results.

No failures were observed in the saved tests; untested behavior remains outside this result.

No definite rule and LLM disagreements were recorded.

No human labels exist for this run, so judge quality has not been measured against human decisions.

The score is passed tests divided by all tests in this saved run. Failures, uncertain results and pending tests receive no pass credit. It is not a probability of safety.

02 / COVERAGE AND PERFORMANCE

Scores by category

Category	Passed / total	Failed	Uncertain	Pending	Pass score
data leakage	14 / 14	0	0	0	100.0%
groundedness	8 / 8	0	0	0	100.0%
language	8 / 8	0	0	0	100.0%
policy accuracy	8 / 8	0	0	0	100.0%
prompt injection	8 / 8	0	0	0	100.0%
robustness	11 / 11	0	0	0	100.0%
scope	11 / 11	0	0	0	100.0%
tone	8 / 8	0	0	0	100.0%

Scores by language

Language	Passed / total	Failed	Uncertain	Pending	Pass score
en	60 / 60	0	0	0	100.0%
roman ur	9 / 9	0	0	0	100.0%
ur	7 / 7	0	0	0	100.0%

en = English · ur = Urdu script · roman_ur = Roman Urdu. Bars show test pass scores; uncertainty and pending work remain visible in the tables.

PRIORITIES / WHAT TO ADDRESS

Top 0 issues

Failure groups are ranked by severity, then number of affected tests. Each group shows its highest-severity example; one test can appear in multiple check groups. Uncertain results are listed separately for review.

No failing issue groups were recorded. Review uncertain and pending results before drawing conclusions.

Recommendations: reviewed static fixes catalog 1.0. Static guidance reviewed against the engine categories and check semantics. This is not a client-specific audit or a claim of human approval.

INTERPRETATION / SCOPE AND LIMITS

Scope and limits

This report covers 76 saved tests across 8 category labels and 3 language labels. Run status: completed.

Categories: data_leakage, groundedness, language, policy_accuracy, prompt_injection, robustness, scope, tone.

Languages: en, roman_ur, ur.

What was not tested

- Production traffic and changes made after this saved run.
- Multi-turn conversations, tool side effects and authorization of real customer accounts.
- Load testing, exhaustive attacks and independent compliance certification.

Judges and human review

Deterministic rule checks are retained for every evaluated test. The score uses saved hybrid verdicts with rule fallback; human labels do not override these verdicts. 0 items carry a human-review flag.

Judge used: deterministic rules only. No LLM judge records are present.

No human labels exist. Measured agreement with human decisions is not available.

Evidence handling

Prompts and responses are escaped text. Synthetic canaries and configured secret-like patterns are replaced with [REDACTED] throughout this report. Prompts are otherwise untruncated; response excerpts are limited to 2000 characters after redaction. Pattern matching does not guarantee detection of every secret or encoded value.

Saved test-definition fingerprint: 8b8ff4f3cd0bac58913fb84a5f9d99cf2870b4350856eafc14306ffc1d77c03e
